

How to set-up GPS recording

- 1) Connect to the clock and navigate to the GPS tab
- 2) Click on the statistics radio button in the top right corner (see Figure 1)
- 3) In the bottom right, click "Disable automatic logout" radio button
- 4) Click the "log to file" radio button. This will present a file browser, select a location to save the recording.
- 5) Leave the tool running for the duration of the monitoring period.
